

Applications

- ☒ Grease trap
- ☒ Separators
- ☒ Pipelines, networks
- ☒ Sumps

BIO-INJECTOR 1 Liquid

Bio-treatment for grease trap

Packaging

4 x 5 L
1 x 10 L
1 x 25 L
1 x 200 L
1 x 1000 L

Characteristics

Aspect: liquid

Color: yellow, blue, green

Odor: fresh or lemony

pH: 7

Norm: AFNOR NF X 42-040

Directive: 2000/54/CEE

Description

BIO-INJECTOR 1 L is a concentrated formula with biodegrades efficiently fat accumulations and other organic waste in grease traps, separators and networks.

BIO-INJECTOR 1 L also controls odors and allows extended drain interval.

BIO-INJECTOR 1 L is used thanks to our automatic dosing systems **BIO-INJECTOR 1**.

Advantages

- Contains AMOs (Active Micro-Organism)
- Degrades organic material
- Treats grease traps and pipes
- Eliminates odors
- optimizes the management of the grease trap
- Fully natural and biodegradable
- Safe for users and equipment
- No toxic vapor
- Neutral pH

Dosing

Daily treatment

BIO-INJECTOR 1 L	meal
[0,25 ; 0,50] ml	1

After each draining

1 starter kit
BIO-INJECTOR 2

Direction for user

(ask for a technical folder)

1 After each draining

- ① Pour the 1 starter kit

2 Daily treatment

- ① **Automatic:** according to the flow of wastewater

3 Shock treatment - in case of strong odors or heavy loads

- ① Double the dose of **BIO-INJECTOR 1**
